

## Why choose us

---

Offering swift lead times, extremely good value for money and unrivalled competitiveness, Coverad are the industry's first stop when it comes to Low Surface Temperature radiator covers.

- *Coverad are the only company that offers a complete service not sub-contracting any of the process. From free site survey, manufacture and installation, everything is carried out in house.*
- *As a brand, Coverad are one of the original suppliers of Low Surface Temperature (LST) radiator and pipe cover. Established in 1993 and re-imaged in 2020, we have tried and trusted expertise giving us the edge time and time again.*
- *Having built a rapport with customers in the most testing of environments, Coverad have developed a range of products 100% suitable for any project.*
- *Coverad have built up brand awareness unsurpassed by any of our competitors through the ability to ensure that customers are treated exactly the same, whatever the size of contract.*
- *If you need your radiator covers manufactured quickly, why not enquire about our priority manufacturing service, reducing lead times to the minimum in the market place.*
