

## Case Study

# Electrical Contractor Scotland

### Client Overview

An **electrical contractor in Scotland**, working on behalf of an **office building landlord**, required a **modern air-conditioning cover solution** to enhance the aesthetics of a commercial property being let out. The existing casings were outdated and did not match the contemporary office design.

## Challenge

The landlord sought a **stylish, updated air-conditioning cover design** that would seamlessly blend with the office's décor while maintaining functionality. Key project requirements included:

- **Modern Aesthetic** – The new covers needed to be **sleek and stylish**, complementing the updated office interior.
- **Custom Colour Finish** – Covers had to be **manufactured in black** to match the office's design scheme.
- **Sharp, Clean Lines** – Unlike traditional rounded designs, the landlord preferred **sharp edges** for a more contemporary look.
- **Seamless Integration** – The new casings needed to **replace existing units** without requiring major modifications to the air-conditioning system.

## Solution: Custom Black Air-Conditioning Covers with Sharp-Edged Design

Coverad designed, manufactured, and supplied **bespoke air-conditioning covers** tailored to the client's exact specifications.

- ✓ **Custom Black Finish** – Covers were powder-coated in black to **blend seamlessly** with the office's interior.
- ✓ **Sharp-Edged Design** – A sleek, modern aesthetic that provided a **high-end, professional look**.
- ✓ **Precision Fit** – Covers were designed to **directly replace existing casings**, ensuring a **hassle-free installation**.
- ✓ **Durable Construction** – Built to withstand **daily office use** while maintaining a high-quality finish.

## Implementation

- **Site Survey & Consultation** – Coverad worked closely with the electrical contractor to **assess requirements and confirm design preferences**.
- **Custom Manufacturing** – Each cover was **precision-made** to match the air-conditioning units while ensuring a **perfect fit**.
- **Efficient Supply & Installation** – Covers were delivered and installed with minimal disruption to office operations.

## Results & Impact

- ✓ **Modernised Office Aesthetic** – The new air-conditioning covers created a **sleek, high-end appearance**, enhancing the appeal of the office space for potential tenants.
- ✓ **Seamless Integration** – Custom-designed to **replace outdated casings**, ensuring a **smooth transition** with no major system alterations.
- ✓ **Long-Lasting Durability** – High-quality materials and **professional powder coating** provided a **durable, low-maintenance solution**.
- ✓ **Client Satisfaction** – The electrical contractor successfully delivered an **upgraded, contemporary office environment** for the landlord.

## Conclusion

By providing **bespoke air-conditioning covers** in a **modern black finish with sharp-edged design**, Coverad helped an **electrical contractor in Scotland** enhance the **aesthetic appeal of an office space**. The project delivered a **sophisticated, updated look**, ensuring the property was more attractive for prospective tenants while maintaining functionality and durability.
